

ACCOUNTS RECEIVABLE RECOVERY

Accounts receivable can be overlooked or not given equal importance as patient care, for many Healthcare providers. One major challenge that every healthcare provider needs to focus on is managing cash flow. Ignoring cash flow management can be fatal to any organization. Getting appropriate reimbursement for the services you provide is crucial in maintaining a successful organization.

The purpose of the **PARA Accounts Receivable Recovery** program is to increase cash flow, avoid claim denials, write-offs and reduce A/R debt.

The **PARA Accounts Receivable Recovery** program deliverables include review of all medical accounts assigned, contact any insurance for follow up and recovery on outstanding balances, perform initial/secondary billing, perform any resubmissions on corrected claims or appeals, review incoming payments, provide daily productivity reports and ongoing support for all A/R collection questions on rules and regulations.
